Mission Statement

DevSecOps Engineer with 5+ years of IT experience. Passionate about building, securing, maintaining, and continuously improving modern business applications through DevSecOps practices.

Technical Skills

Cloud Platforms: AWS, Microsoft Azure

AWS Services: EC2, VPC, IAM, S3, Route 53, CloudFront, Lambda, API Gateway, Amazon EKS, SQS, SES, ACM, CloudWatch, RDS

Infrastructure as Code: Terraform, CloudFormation, Ansible

Containers: Docker, Kubernetes, Helm

CI/CD: Jenkins, GitLab CI/CD, GitHub Actions, Git, GitHub, GitLab, SonarQube

Monitoring: Prometheus, Grafana, Splunk, CloudWatch

Security: IAM, KMS, Secrets Manager, Security Groups, Network ACLs, SSL/TLS, Least Privilege Access

Programming: Python, Bash, SQL, YAML

Professional Experience

DevSecOps Engineer

World Financial Group (WFG)

August 2023 – Present

- Build and manage AWS infrastructure using Terraform; provision EC2, VPC, IAM, Route 53, CloudFront, Lambda, API Gateway, and Amazon EKS.
- Manage containerized applications with Docker, Kubernetes, and Helm; support scalable microservices deployments.
- Automate CI/CD pipelines using Jenkins and GitLab CI/CD; streamline application and infrastructure deployments.
- Implement cloud security using IAM, AWS KMS, Secrets Manager, SSL/TLS, and least-privilege access controls.
- Support developers by resolving deployment and infrastructure issues using Jira, GitLab, and Confluence.

DevOps / Database Administrator

Lighthouse Chapel

May 2021 – August 2023

- Administered Azure SQL databases, ensuring high availability, backup, recovery, and performance optimization.
- Automated database administration and operational tasks using PowerShell, Bash, and Azure Data Factory.
- Implemented RBAC, encryption, and database security controls to protect business-critical data.
- Supported Windows and Linux environments while collaborating with developers to troubleshoot production and database issues.

Credentials

- AWS Certified Solutions Architect – Associate
- Microsoft Certified: Azure Database Administrator Associate
- Microsoft Certified: Azure Data Fundamentals
- Bachelor of Science, University of Education, Winneba, Ghana

Core Traits

■ Hardworking ■ Confident ■ Team Player ■ Quick Learner ■ Friendly
